

## PD versus SE(3) whole-body control

Success over 480 deterministic pushes

Measured basin summary

|                            | PD    | SE(3) WBC |
|----------------------------|-------|-----------|
| largest recovered push [N] | 120   | 140       |
| median latency [s]         | 0.050 | 0.150     |
